Hedgehog

Your site, without the headache.

We move your existing website onto Hedgehog, where it's faster, much harder to hack and looked after for you. Need to change your prices or hours? Send us a voice note from the van.

HOW IT WORKS

Three steps, and you never touch a dashboard.

1

Send us your web address

We rebuild your homepage on Hedgehog and email you a private preview. No card, no obligation.

2

We move the whole site

Your pages, photos and prices become plain, finished pages on fast, secure hosting. Your files stay yours.

3

Change it by voice or text

Tell us what's changed, like you'd tell a staff member. You get a preview, and it goes live when you say so.

SECURITY, IN PLAIN ENGLISH

Hackers need a way in. We take the doors away.

- **No plugins** to update, renew or break into.
- **No database** behind your site to leak.
- **No login page** for robots to guess.

11,334
new holes in WordPress add-ons in 2025

91%
of them were in plugins

5 hrs
before robots try a new hole

We won't promise a site can never be attacked. We remove the parts behind almost all small-business break-ins, and help lock down your domain and email too.

WHO IT'S FOR

Made for shop-window websites.

If customers find you online, check your prices, then call, message or book, Hedgehog is built for you.

Plumbers · Sparkies · Salons · Cleaners · Physios · Gardeners · Cafés

PRICING

Simple, honest pricing.

TO START
Covers the move **and** your whole first year
$199

THEN YEARLY
Billed $216 a year. Best value
$18/mo

OR MONTHLY
Month to month
$25/mo

Sources: Patchstack, State of WordPress Security 2026 (2025 data). Not built for full online shops with stock and checkout; we'll tell you straight if we're not the right fit.
